CATALOGUE No. 45

$5.00 "OUR MASTER TOOL SET" $5.00

The Biggest $5.00 Worth of High Grade Carpenter's Tools Ever Offered.

This set has been gotten together for general house or farm use being complete enough to do any kind of carpenter work, and all the tools that are included in it are of the very best quality that can be made. It consists of 1 Brace 10" sweep, 1 high grade Auger Bit each ¼", 5/16", ⅜", ½", ¾" and 1"; 1 best quality forged English tool Steel Chisel, each ¼", ½", ¾", 1", and 1¼", each fitted with best quality beechwood handle. The Saw is the "Harvey W. Peace" make, which is a guarantee of one of the best productions in hand saws and is fully covered by our complete guarantee. The Plane is one of the best American made patterns, 15" long with 2⅛" high grade steel cutter. This plane is easily adjusted for any particular style of work that you desire. The hammer is of the best quality forged cast steel, fitted with good, strong hickory handle. In ordering this set you may feel assured you are making no mistake, as every item as listed above is exactly as represented and is fully covered by our broad guarantee.

GENERAL MERCHANDISE CATALOGUE, No. 45.

ALL PRICES IN THIS BOOK ARE NET CASH AND ARE **NOT** SUBJECT TO ANY DISCOUNT.

HAMILTON is decidedly the most favorably located city in Canada for the distribution of goods of nearly all classes. Being located in the very heart of the great manufacturing district, and having within its own limits nearly five hundred manufacturing establishments of all kinds, it can readily be seen that we are right at the chief base of supply and can serve you promptly.

TERMS OF SALE—All goods purchased from us are guaranteed to be exactly as represented or will be cheerfully exchanged. If, upon receiving a consignment of goods from us, you should not be satisfied with any article purchased, write to us at once, sending back at the same time all the papers you received from us relating to such shipment and tell us just what you wish us to do. Your suggestions will receive our fairest consideration and a prompt and satisfactory adjustment will be made, and if it seems necessary in order to thoroughly satisfy you we will, without hesitation or quibbling, instruct you how to ship the goods back to us at our expense. For sanitary and other reasons such articles as hair goods, rubber goods, brushes and combs, veils, etc., cut lengths of goods and goods made specially to measure or specially purchased for you are not returnable. **Please remember**—We cannot entertain any complaints unless all papers are sent back as requested above. These papers are necessary in looking up your order records on file in our offices. Kindly do not forget this.

We solicit a liberal share of your patronage.

Yours respectfully,

STANLEY MILLS & CO., Limited, Hamilton, Ontario.

OUR TERMS

CASH WITH ORDER AND ONE PRICE TO ALL.

We employ NO AGENTS. We have no connection with any other Mail-Order Concern.

HOW TO SEND MONEY

All Funds must be made "payable at Par" in Hamilton.

There are many safe ways of sending money, as follows:—

1st—Express Money Orders for any amount.

2nd—Cash with order by Express.

3rd—Post Office Order for any sum.

4th—Bank Bills in Registered Letter.

5th—Postal Notes for amounts of 20c or over.

6th—Bank Draft Payable at Par in Hamilton

7th—Your Local Bank Cheque, **marked good** by your Banker.

8th—Postage Stamps not exeeeding 20c. on any one order. The Postal Authorities prohibit the sending of postage stamps for more than 20c. at any one time.

Don't be afraid of sending too much money; all balances are promptly refunded.

C. O. D. SHIPMENTS

We do NOT ship any goods C. O. D. unless the order amounts to at least $20.00, and even then not unless one quarter of the total amount of order is remitted at the time.

When such an order is received we ship your goods C. O. D., sending invoice by Express.

When you pay balance of bill to the Express Company's Agent along with carriage charges you receive an endorsed bill of lading which releases the shipment and secures delivery of the goods to you.

NOTE.—**We can only send C.O.D. Shipments** to stations where Agents are located who are authorised to collect charges for the Transportation Companies.

ABOUT PRICES

Prices in this Catalogue will be found very favorable when compared with other prices within your own particular locality or of other Mail Order houses.

On account of unsteady markets, we cannot guarantee prices but will always fill orders at best prices possible.

We accept NO Order for less than 25c.

See page VI for Freight Rates, Express Rates, Shipping Information and Mail Package Rates.

SPECIAL NOTICE

Of Particular Interest to our Western Customers.

We are sometimes asked why we do not establish a branch of our business at Winnipeg. Our answer is—

When we can sell our goods as cheaply in Winnipeg as we can in Hamilton we will be prepared to open a branch there. We cannot do that at the present time.

HAMILTON is the cheapest place in Canada for Hardware, because nearly everything in hardware is made in Hamilton. To-day it is commercially impossible for catalogue houses in the west to sell at our prices. Compare our figures with those of any western catalogue house, and you will find our prices considerably lower.

Some firms have higher prices for their Manitoba and other Western customers for identically the same goods than they charge customers living in Ontario and Quebec, or other eastern provinces. **NOT SO WITH US**. Our prices are the same always, to Ontario or Eastern buyers, to Manitoba, Saskatchewan, Alberta, British Columbia or the Yukon buyers, always the same and that the very lowest for a reliable grade of merchandise, no matter where you live—**A FAIR AND SQUARE DEAL TO ALL ALIKE.** We have no branch houses anywhere and have no connection with any other concern.

All of our business is conducted from Hamilton, Ontario.

QUALITY OF GOODS

The articles we offer for sale through the medium of this catalogue are all reliable goods and excellent values at the prices named. We avoid articles that are merely gotten up to sell at a low price, preferring rather to sell the better qualities at as **close to cost** prices as possible.

We expect the goods we sell you to bring us further orders, not only from yourself but from your neighbors. We invite a careful study of this catalogue. All prices have been revised carefully and are in every instance **very favorable.**

RETURNED GOODS

We have such confidence in our goods and the reliability of our catalogue descriptions that we do not hesitate to give you an absolute guarantee of satisfaction. Customers should not however abuse the privilege by returning goods **at our expense** without writing us first. We must reserve the right to specify how goods are to be returned. It may occasionally occur that through either mistake or misunderstanding some article may not turn out to be what is required, and in such an event be sure to write us first telling us what is not satisfactory and what you wish us to do. We will immediately tell you how to ship same back the most economical way, and will cheerfully adjust the matter with you. Each transaction, to be satisfactory to us must be satisfactory to our customer.

Notice must be given within 10 days after receipt of shipment of any articles not satisfactory.

ESTIMATES

Use our order sheets if possible.

If you are in doubt about purchasing any bill of goods from us, make up your order, filling out the amounts and totalling up the list; mail it to us asking us to tell you the cost a your station, including charges, and we will send list back to you by return mail. Then, if satisfied you can send the same list in as your order, enclosing amount to cover cost of goods and if there is no agent at your station, enough extra to pay the charges as well.

HOW TO ORDER

Our Catalogues, order sheets and addressed envelopes are free for the asking.

Use **our order sheets** if at all possible, or make out a sheet same size and ruled the same way answering **all** questions and filling in all sizes, pages, &c., necessary. Be careful to write your name, post office and province plainly and if goods are to go by Express or Freight, be sure to give your nearest Railway Station—here there is a Station Agent.

PROMPT SHIPMENTS

In making out your order, start at the beginning of our catalogue and fill out your order sheet with the items required in the same order as they appear in our catalogue, giving quantity, ordering number, size and page for each item. By doing this you will help us to fill your order quickly, and we will thus be able to give you the most satisfactory kind of service.

CLUB ORDERS

We recommend our customers living at a distance to send club orders if they cannot make up a shipment that will weigh over 100 lbs by themselves.

Two or three or more can club in together writing each order on separate sheet, but marking plainly to whom the goods are to be addressed. These orders must, of course, be sent to us in one envelope with shipping instructions from the person to whom the goods are to be shipped.

This enables us to handle such orders with accuracy and despatch, treating them as if only one person were ordering and of course in this manner of handling we would send all bills and communications to the person who is, in such case, acting for the others who have helped make up the club order.

STANLEY MILLS & Co., Limited, Hamilton, Ontario.

Entered according to the act of Parliament of Canada, in the year one thousand nine hundred and eleven by Stanley Mills & Co. Limited, at the Department of Agriculture

Every six months we give $2.00 in cash to person who has during that time sent to the most neatly written order. Try for it.

ORDER SHEET

To STANLEY MILLS & CO., Limited, Hamilton, Ontario. Date .....

Please fill the following order as promptly as possible and oblige.

(WRITE YOUR NAME AND ADDRESS VERY PLAINLY, AND ANSWER ALL QUESTIONS)

Name, MR. MRS. MISS _____

Post Office, _____ Box No. _____

(ALWAYS GIVE YOUR REGULAR POST OFFICE ADDRESS)

Province, _____

Freight Station, _____

Express Office, _____

Upon what Railroad is your nearest Station? _____ How far is the Station from your home? _____ Miles. Has the Railway Co. an Agent at that Station? _____

Money enclosed.

Cash, - $_____

Postal Notes, - $_____

Post Office Order, - $_____

Bank Draft, - $_____

Express Money Order, $_____

Total Enclosure - $_____

THIS ORDER IS MADE UP FROM CATALOGUE NO. _____

Note—We cannot ship goods to stations where there is no agent authorized to collect charges unless enough money is sent to prepay

WRITE NOTHING on this sheet EXCEPT the order, as general correspondence and Orders are attended to by different clerks, and thus all delay in the filling of the order would be avoided.

In the case of Club Orders, each man's order should be written on a separate Order Sheet with his name filled out above. Also state plainly to which person the shipment is to be addressed. We will supply order sheets free in any quantity, also catalogues.

The safe delivery of all shipments which go by Freight or Express to regular stations where railway agents are located is guaranteed by our insurance department without extra charge.

All orders to go by mail should include 5 cents for registration on each parcel thus insuring the safe delivery of same. Unless the amount is enclosed we do not insure parcels going by mail.

			BROUGHT FORWARD				

Our GREAT PROFIT-SHARING PLAN

EVERY CUSTOMER PRACTICALLY A SHAREHOLDER IN THIS BUSINESS

READ CAREFULLY

With every order **of $5.00 or more received by mail** we issue **profit-sharing certificates**, representing the amount of goods purchased, in even dollars.

Save these certificates until you have enough to entitle you to the **free premium** you choose from our premium list. Then send them in to us asking us to send you whatever premium you have chosen, stating the number and name of article and it will be packed carefully and handed to the transportation company that can carry it to you for the smallest extra charge for carriage. Any of the Premiums that can be safely and conveniently sent by mail we shall be glad to send that way. The extra charge for postage is plainly marked for such premiums on the following pages, and this extra amount in stamps or cash should be remitted to us along with the certificates you wish to redeem.

A BETTER WAY

If you can make your order large enough at one purchase you can have your premium shipped right along with your other goods. This is the most economical plan.

The following Premium pages give a complete list of our Profit-Sharing Premiums. The Premium Department is operated separately from any of our general merchandise departments and we cannot send any goods as premiums other than the articles shown on these Premium pages. This Premium List cancels all previous lists of articles given in exchange for Profit-Sharing Certificates.

$25.00 in certificates will entitle you to your choice of any one of over a dozen different useful articles **absolutely free.**

$50.00 in certificates will entitle you to any article advertised as a $50.00 premium, or 2 of the premiums advertised as $25.00 premiums. You will understand from this explanation that if you should save $250 00 worth of these certificates you would be entitled to any one of the premiums advertised as $250.00 premiums, or any choice from the $25.00, $50.00, or $100.00 premium lists that would total $250.00. Save your certificates.

We keep an accurate record of all profit-sharing certificates issued and there is no delay whatever. We ship premiums immediately upon receiving the proper amount of certificates to entitle you to same.

Profit-Sharing Certificates are not transferable.

If defaced in any way, altered or erased they become void.

On Club Orders profit-sharing certificates are issued to the person in whose name the order is being handled or to whom the goods are being shipped.

Read what we say on the inside front cover-page about our **TERMS OF SALE** and about **RETURNED GOODS.** When goods are returned for any reason, certificates must also be sent back for correction. **This is important.**

We allow no cash discount for large orders.

We **do not** pay freight to any favored locality.

All prices in this catalogue are net and subject to no discount whatever.

We have no agents or travelling salesmen.

OUR PROFIT-SHARING PLAN gives every mail order customer the same form of discount and should encourage all to give us a more liberal share of patronage than ever.

Address all communications to

STANLEY MILLS & CO., LIMITED,

SHIPPING INFORMATION

MAIL SHIPMENTS

If you wish goods sent by mail, we must pay the postage, so it is necessary for you to send us the extra money at the rate of one cent for each ounce. We have marked in our catalogue the amount extra for postage on a great number of articles that can be readily sent by mail, but in any case be sure to send plenty as we promptly refund all balances. If sufficient is not sent we are forced to omit some item or write you for more money thus causing a delay we would gladly avoid. Parcels of 5 lbs. or less can best be sent by mail.

SAFE DELIVERY of Mail Packages:— If you wish to ensure the delivery of mail packages, send 5 cents extra for Government Registration on each parcel.

EXPRESS SHIPMENTS.

All parcels of 30 lbs. or under (and if the distance is not great, considerable more weight) can best be shipped by Express. We guarantee prompt and sound delivery. If package is damaged mark plainly on receipt you give the Express Agent that the package is in **"Damaged Condition." This is important.**

EXPRESS RATES.

We give below the Graduated Table of Express Rates showing just what the charges will be on any given weight at the different rates per 100 lbs. Look up in Station List below your own Station or some one near it; then look up the Express Rate there quoted and you can readily estimate the charge on any parcel up to 50 lbs. in weight.

GRADUATED EXPRESS TARIFF FOR PACKAGES UP TO 50 lbs. WEIGHT.

When Rate to your Station is between any two rates in this list use the next one higher.

NOTICE.—If there is no agent authorised to collect charges at your station the extra funds to prepay charges must be enclosed with order, and shipment is at your risk.

Where a double or bracketed rate is quoted it means that in order to reach the station referred to, two different Express Companies have to handle the shipment. It is in such cases necessary to figure the weight at each of these rates separately, adding the two resulting amounts to arrive at cost of carriage. On packages of 7 lbs. or under this rule does not apply. If package is under 7 lbs. add the two rates together, then figure the same as if a single rate applied.

FREIGHT SHIPMENTS

We **guarantee the safe delivery** of all freight shipments, but in case of breakage or shortage it is necessary that you have the Railway Co.'s agent make a note on your receipt, telling just what the breakage or shortage is, so that we can secure redress from the Transportation Company, and promptly adjust the matter with you. We cannot guarantee delivery to "flag" stations—that is stations where the Railway Co. has no authorized agent.

We give below a list of Summer Freight rates on the different classes of merchandise, also the Express Basing Rate per 100 lbs. to many different Stations throughout Canada. This information will enable you to estimate the cost of almost any bill of goods including carriage charges to your station.

Sewing Machines, Organs, Pianos, Tinware, Harness, Dry Goods and Groceries are **FIRST CLASS FREIGHT.**
Hardware—mixed, Tired Wheels, and Crockery. **Second Class.**
Iron Pumps, Stoves, and Wire Netting, are **Third Class.**
Building Papers, Roofing, and Iron Pipe, are **Fourth Class.**
The Winter Freight Rates (**November to April**) are a few cents per 100 lbs. higher.

STUDY THESE RATE TABLES CAREFULLY

Please note that the Smallest Charge the Railway Co. will make on any freight shipment, no matter how much less than 100 lbs. the goods weigh, is always 15 cents more than the First Class freight rate per 100 lbs. Always try to make a freight order up to 100 lbs. or more. The smallest charge in any instance is 50 cents. If your station is not listed above and you wish exact rates WRITE US.

SAWYERS', LUMBERMENS' AND THRESHERS' SUPPLIES

"Stanley Blade" Lance Tooth Cross-Cut Saws

Everyone who does any considerable amount of sawyers' work will be interested in this line of Lance Tooth Saws. This is one of the most important items in our whole catalogue and we know that in this "Stanley Blade" Lance Tooth Saw we have a most satisfactory article. The illustration, showing a short section of this style of saw, gives you a practical idea of the style of cutting teeth. Now, about the quality, we can only say that there is no better grade of finely tempered saw steel made. Every Saw warranted to be perfect in every way and to give excellent results in practical use.

THE STANLEY BLADE FAST CUTTING SAWS

Note particularly the style of the teeth in this illustration. This is the most up-to-date pattern and it is supplied in all of our Cross Cut Saws as listed below under numbers H 1570, 1575, 1581, 1582, 1583 and 1584. These Lance Tooth Saws are all of warranted thin-back construction and are all ready for use. Every Saw blade is made of best tempered Saw Steel, and we feel that we cannot say too much in favor of these high-grade saws. We have sold thousands during the past few seasons and this year we have been able, by undertaking to dispose of an exceptionally large number to make buying arrangements that have enabled us to lower our prices.

H 1570—"Stanley Blade" Lance Tooth Cross Cut Saws. Priced Complete With Handles.

"Stanley Blade" Cross Cut saws are made specially to our order by one of the most reliable Saw Manufacturing Concerns. Every Saw is of the most finely tempered saw steel of the correct gauge to ensure easy working. Please remember that each and every saw is warranted to be of the very best quality. We have insisted upon this during past seasons and we know that we can guarantee the quality.

Our prices are lower than ever, this condition only being made possible by our system of buying for cash in tremendous quantities.

Length, 5 feet, **$1.65**; 5½ feet, **$1.80**; 6 feet, **$1.95**; 6½ feet, **$2.25**; 7 feet, **$2.50.** When ordering, state style of handles wanted.

H 1575—Narrow Stanley Blades, Lance Tooth Fast Cutting Pattern.

Length, 5 feet, **$1.35**; 5½ feet, **$1.50**; 6 feet, **$1.65.** Complete with handles.

In some districts these narrow Stanley Blades meet with a ready sale and always give satisfaction. The Narrow Stanley Blades are priced with No. **H 1588** handles only. No other kind of handle will fit the narrow blades. These narrow blade saws are exactly same quality and make as No. H 1570.

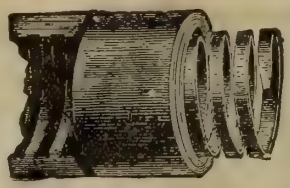
Threshers' and Mill-Owners' Supplies.

Improved Tank Pump. $6.85

H 1801—This celebrated pump known as The Low Down Style Tank Pump is the best suction pump by long odds that threshers and engineers can obtain. Its capacity is nearly two barrels per minute. It has a 5 inch double acting cylinder (brass valve seats) of wonderful capacity. It stands low down, with a long handle, thus giving the operator great power and leverage. The suction pipe to use is 2 inch wire lined hose, and for force use 1 inch rubber hose. Weight is 85 lbs. This pump may be used not only as a thresher's suction pump, but for filling tanks, washing out boilers, for stable pump use, for draining cellars or cisterns, for miner's use, and for fire purposes, as it will throw a stream 60 feet through the discharge nozzle. Price of The "Improved Tank Pump complete with strainer and nozzle is only.... **$6.85**

H 1805—Extra Washers for our tank pumps, per pair, **65c**; postage on pair **5c**.

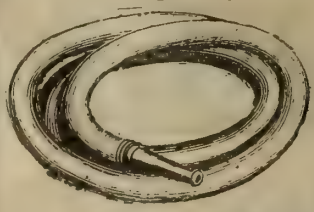
Wire Lined Suction Hose.



Rubber Suction Hose, 2 inches inside diameter and flat wire lined, sold only in lengths of 15 feet and 20 feet each, made of best quality rubber and canvas in alternate layers. The proper hose to use with one of the Improved Tank Pumps.

H 1806—15 foot length of 2 in. Hose, **$8.75.**
H 1807—20 foot length of 2 in. Hose, **$11.50.**
There are cheaper lines of hose, but we prefer to sell only the quality that will give absolute satisfaction.

H 1808—1 inch, hard rubber suction hose to be used with steam pumps. **40c** ft., sold in 12 1/2, 25 37 1/2 and 50 ft. lengths only.



H 1810—10 foot length of 1 inch Discharge Hose and Nozzle (to fill the boilers with) **$2.25.**

This is the standard heavy grade used by threshers who want the very best.

H 1811—Strainer Ends for 2 in suction Hose, complete with clamp, or band, **35c.**

H 1812—Extra Nozzles for Discharge Hose, **20c** each.

H 1814—HEAVY BINDER CANVAS

JAP-A-LAC THE HOME BEAUTIFIER

H 4433 "JAP-A-LAC" is a varnish and stain combined, that is, the very best quality of varnish and the purest of pigment colors, ground in oil.

This insures wonderful wearing qualities and permanency of color.

"Jap-a-lac" stains and varnishes at the same time.

We can also supply natural or clear "Jap-a-lac," which contains no coloring matter whatever, but is a beautiful transparent varnish which dries with all the brilliancy of the colored Jap-a-lac. "Jap-a-lac" is for use on new or old work of all kinds, whether wood or metal, where a high grade color or clear varnish is required. Specially adapted for interior woodwork of all kinds, floors, furniture, porch and lawn chairs, iron work, carriages, picture frames, andirons, lamps, chandeliers, plate racks, screens, linoleums, and oilcloths, in fact anything that needs a new finish or a freshening up. Made in following colors;—Walnut, cherry, mahogany, ground, ox blood red, light oak, dark oak, gloss white, flat white, gloss black, dead black and natural.

FARMERS' STOCK AND FORCE PUMPS

H 4600—Stock Pump. $5.00.

Capacity 440 Gallons per hour, Iron Lift, with adjustable platform base and patent reversible syphon spout; 3 inch polished iron cylinder, bottom of cylinder 7 feet below platform; tapped just above cylinder which allows water to escape from the head to prevent freezing; bottom of cylinder tapped for 1¼ inch iron pipe, total weight about 70 lbs, 3rd class freight Price **$5.00.** 1¼ inch iron pipe for above, **10c** per foot extra. Suitable for use in wells 30 feet or less, in depth.

H 4601—Stock Pump. $6.50.

Capacity 600 Gallons per hour, Iron Lift, with adjustable platform base and patent reversible syphon spout; 3½ inch polished iron cylinder, bottom of cylinder 7 feet below platform, tapped just above cylinder which allows water to escape from the head to prevent freezing; bottom of cylinder tapped for 1½ inch iron pipe, total weight 80 lbs, 3rd class freight Price **$6.50.** 1½ inch Iron pipe for above **12c** per foot extra. Suitable for use in wells 30 feet or less, in depth.

H 4602—Stock Pump. $8.25.

Capacity 600 Gallons per hour, Iron Lift with adjustable platform base and patent reversible syphon spout; 3½ inch brass lined cylinder with patent non-corroding brass valve seat, tapped above cylinder to allow water to escape from pump head, bottom of cylinder 7 feet below platform, the piping from pump head to cylinder is 1½ inch best galvanized iron, cylinder is tapped for 1½ inch iron pipe. Total weight 80 lbs, 3rd class freight. Price only **$8.25.**

This pump is an exceptional value.

1½ inch Galvanized Iron pipe **15c** per foot extra. Suitable for use in wells 30 feet or less, in depth.

H 4605—Anti-Freezing Force Pump. $9.75.

Our Best Hand Power Pump.

Capacity 600 Gallons per hour. The very best single acting force pump made. For easy operation, neatness in appearance and simplicity in construction, it cannot be excelled and wherever a force is required it will give good service. This pump has excellent attachments for rubber hose so that a tank or trough at some little distance (according to length of hose) can be filled or for watering garden or lawn. Fitted with reversible syphon spout, air chamber and ventilated cased head. Bottom of cylinder is 7 feet below the platform and is tapped for 1½ inch iron pipe. The pipe connecting pump head with cylinder is of best galvanized iron and if fitted below with galvanized pipe (as it should be), this makes a most excellent deep well pump outfit for house as well as stock purposes as the galvanized piping throughout prevents the water from becoming tainted in any way. Cylinder is 3½ inch, brass lined with patent non-corroding valve seat and poppet valve. This pump has anti-freezing vent just above the cylinder. Total weight about 80 lbs. 3rd class freight. Price of this excellent pump

ONLY $9.75

1½ inch galvanized iron pipe **15c** per foot.

3/4 inch 4-ply rubber hose (best quality) **15c** per foot. Sold only in 12½, 25, 37½ or 50 ft. lengths.

Combination Spray and straight Stream Nozzle, **45c.**

Hose Couplings and Fasteners to make one connection, per set, **25c.**

Write to us about this Pump, giving depth of your well and ask us for price on complete outfit.

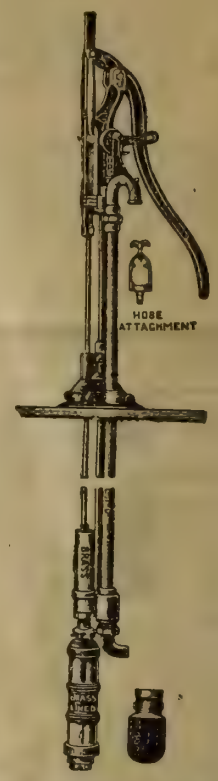
H 4606—Windmill or Hand Power Force Pumps, $11.25— Capacity, 750 gallons per hour. This pump can be used by hand power or be driven by windmill. It is a very heavy, durable pump. Ease of operation and capacity are its strongest features. This pump has excellent hose attachments for 3/4 inch hose. It has commodious air chamber that makes it possible for this pump to give forth an even flow when in operation. Cylinder is 3½ inch polished iron and the bottom of the cylinder is 7 feet below platform, and is tapped for use with 1½ inch iron pipe. This pump is ready for use in wells up to 30 feet deep by adding the necessary iron piping below the cylinder. If an outfit for a greater depth is wanted, this pump which can readily be used in wells of as great a depth as 60 or 70 feet, will of course need to have the cylinder lowered at an extra expense of **$1.50** for the alteration work and **2c** per foot extra for plunger rod to make the necessary connections Write us, telling us the depth of well, how many feet of water in well at driest season, nature of well bottom and any other information that you can give, and we will gladly quote you a price on a complete outfit for your well.

Price of Pump described above is only **$11.25.**

H 4607—Windmill or Hand Power Force Pump, $12.75— Same as No. H 4606, only it is fitted with Stop Cock Spout of very best construction. This Pump also has, in the air chamber or head of pump, an outlet into which can be fitted 1½ inch iron pipe, which can be used to convey the water (when stop cock is closed) to an upper tank or reservoir at any reasonable elevation.

Price of Pump with Stop Cock or Tap, **$12.75.**

1½ in. Iron Pipe, **12c** per ft. extra
1½ " Galvanized " **15c** " "
¾ " Best qual. Rubber Hose **15c** ft.
Only sold in 12½, 25, 37½, 50 ft. lengths
Nozzle, **45c.** Hose couplings, **25c** set



H4609—Double Acting Force Pump, $13.00.

This Pump has an exceptional capacity, and is capable of pumping water in a thoroughly satisfactory manner, under most trying conditions, either by hand or windmill.

This new branch pipe double acting Force Pump of anti-freezing construction, with vertical three-way and windmill head, is for use in shallow and deep wells. It is neat in design, strongly and compactly built and is made almost entirely of wrought iron and steel; has reversible spout; the base is adjustable and separated in halves, being held together by the means of 3 heavy bolts; the discharge is direct from the cylinder.

In placing this pump in a 25 foot well, or less, it needs nothing but the addition of the necessary piping below the cylinder, and when in a well of greater depth, the lower cylinder can be lowered still further, same as we explain under No, H 4606 Pump.

The three-way is of vertical pattern, throwing the cam lever on the spout from right to left changes the course of the water; by removing the union nut on elbow, the three-way valve can be removed without disturbing the rest of the pump.

This Double Acting Force Pump has excellent hose attachments for ¾ inch rubber hose. Cylinders are of highest quality and guaranteed to give most satisfactory results. Bottom of cylinder is tapped for 1½ inch iron pipe and is 7 feet below platform level. Shipping weight 90 lbs.

Price of Double Acting Force Pump complete, as described and pictured above, **$13.00.**

1½ inch Black Wrought Iron Pipe, per foot **12c.**

1½ inch Galvanized Iron Pipe, per foot, **15c.**

¾ inch 4-ply Rubber Hose (best quality) per foot, **15c.** Only sold in 12½, 25, 37½ and 50 ft. lengths.

CISTERN, TANK AND HOUSE FORCE PUMPS

H 4611—Close Spout Pitcher Pump

For cistern and shallow well use
Price **$5.25**

This is a strongly built Pitcher Pump with close spout which confines the delivery of the water, made with reversible top so as it can be used as a right or left hand pump, fitted with Wrought Iron Pipe connected to 3 inch iron cylinder. This makes a very easy working outfit for house or outdoor use, measurement from platform to bottom of cylinder 4 feet 3 inches, bottom of cylinder tapped for 1¼ inch pipe

Weight, 50 lbs.

3rd class freight.

Price only **$5.25**

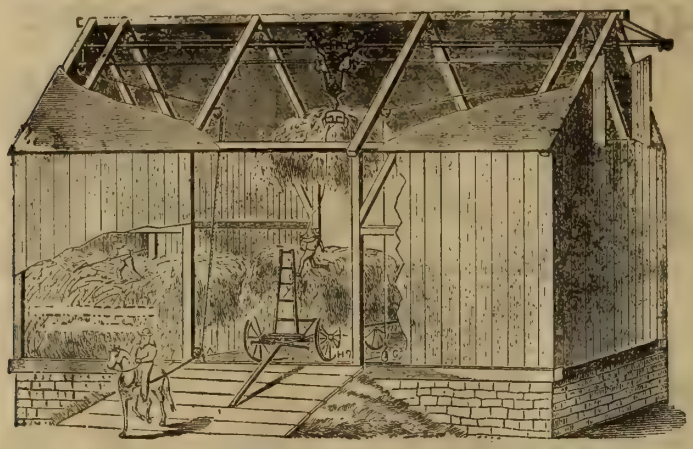
H 4702—Plunger Rod Couplings, size 7/16 in.: each **5c**. The Plunger Rod Couplings that we sell are about 2 inches long, and are threaded at both ends to suit 7/16 inch rod.



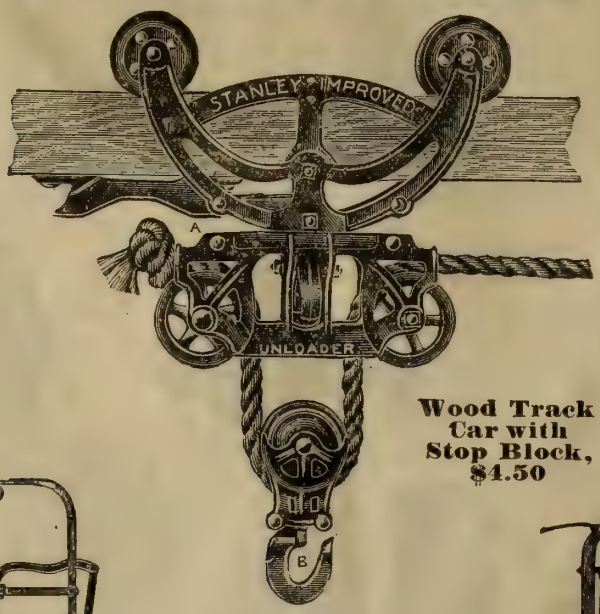
"STANLEY" HAYING TOOLS

We recommend all farmers to equip their buildings with hay fork and waggon sling outfits. A very large amount of hand labor is saved by their use. Everything should be of the very best material, it is the cheapest in the end and always the safest. Our improved hay cars are all malleable iron, the forks are of steel and our rope is pure manilla, the best of everything and prices so low as to be within the reach of all. Wood track outfits have been well tested and are least expensive, easily erected, and operate satisfactorily in every way. If you wish us to give you an estimate of the cost of an outfit for your barn or shed, we shall be glad to do so. Write to us, giving length of your barn, and say whether it has a centre or end or outside drive-way for unloading. On another page we list several outfits from which you can obtain considerable information as to requirements. We are headquarters in Canada for Hay Fork Outfits and we only sell the best of everything obtainable in this line. Write to us if you are thinking of erecting a fork outfit.

The "Stanley" Improved Unloader

H 4900—This is the latest improved pattern of Wood Track Hay Carrier. In no former season has such a perfect working car been offered. They are for use with 4 in. x 4 in. track. Scantlings 4 x 4 inches, either hard wood or pine, can be had easily in any locality at slight cost.

The "Stanley" Hay Carrier is made of the best of malleable iron with ⅞ inch steel axles and oil openings. It is a swivel and reversible car, and can be worked to either side of the barn floor. The lock and tripping mechanism is composed of two parts, has no springs, is very simple, sure and reliable. The price of the "Stanley" Carrier including the fork pulley and one stop block as shown in the illustration is **$4.50** and you have one of the best Wood Track Hay Carriers ever made, weight 35 lbs. Extra stop blocks **30c** each, extra fork pulleys **75c** each. The best size of rope to use is ⅜ inch.



Wood Track Car with Stop Block, $4.50

H 4904—Rafter Brackets, improved, 3 hole pattern, malleable iron. Price, with nails, **5c** each.

Harris Double Harpoon Hay Fork $1.25

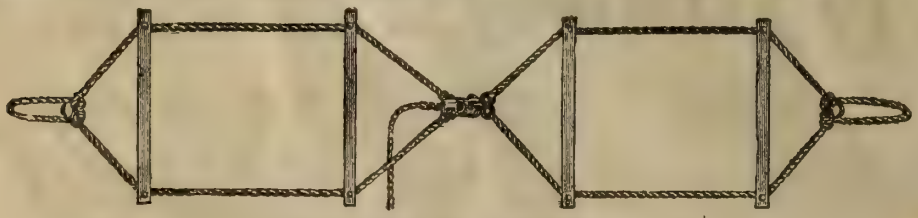
HARPOON FORKS

H 4901—Harris Double Harpoon Fork, made of steel, a good substantial serviceable inexpensive fork. Price **$1.25** each; weight 19 lbs.

H 4902—Improved Lock Lever Double Harpoon Fork. This fork is absolutely the best hay fork made. It holds its load safe, turns up clean from the bottom, locks very easily and is easily tripped and has a low head. Price only **$2.35** each. We recommend the purchase of this excellent fork every time. Weight 24 lbs.

Improved Lock Lever Fork $2.35

H 4906—Hooked Track Bolts, 2 nut, long thread pattern, 12 inches long, for wood tracks only, **7c** each. By the use of 2 nutted bolts, one nut on top and one nut on bottom, the track is kept rigid and firm, and this is an advantage.



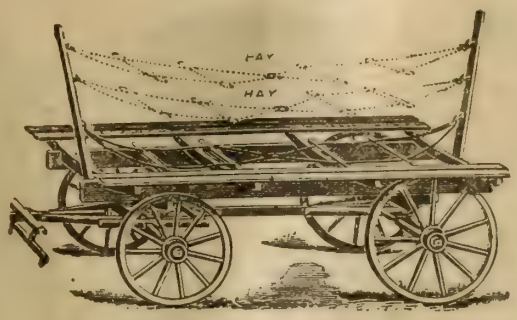
WAGGON SLINGS.

H 4903—Centre Trip Waggon Slings. Any farmer with a "Stanley" Hay Carrier in his barn may use either a harpoon fork or a set of slings. We recommend the fork for his hay crop and slings for his grain crop. It is customary to use four centre trip slings for each waggon in use, and they are used in conjunction with the self-locking sling pulley, as per No. H 4909. Some people use only three slings to each waggon, but four is better. The length of these slings is adjustable to the length of any hay rack. The locking device in the centre of each sling trips easily and lets down the load exactly as you build it. Price of each 4 foot sling is **$1.85**, 5 foot sling **$2.40**, 6 ft. sling, **$2.50**. Self-locking sling pulley is **$2.00**. A set of four 4 ft. slings and one self-locking pulley would therefore be **$9.40**. Weight of each 4 ft. sling is about 15 lbs. 3rd class freight. A 4 ft. sling means that the sling is 4 ft. wide.

H 4909—This Self-Locking Sling Pulley is supplied with all our new sling outfits. It is for use with the "Stanley" Hay Carriers, as illustrated on pages 42 and 43. The Self-Locking Pulley is the most satisfactory self-tightening pulley made.

Price each, **$2.00.**

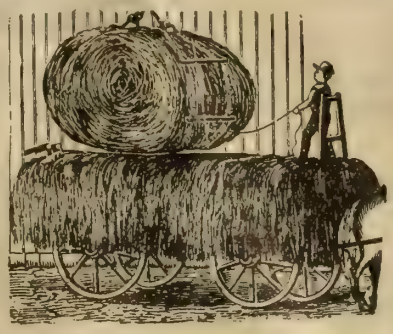
The Use of Centre Trip Hay and Grain Slings



METHOD OF PLACING SLINGS

The use of Centre Trip Slings is coming into favor so rapidly that we have thought, for the information of those who have not yet adopted this method of handling hay and grain of different kinds that it would not be amiss to show, with the aid of the above picture, the method of placing these slings. These slings are priced in 3 widths (4, 5 and 6 ft.) on the opposite page. Either 3 or 4 of these slings can be used on the wagon and when used in conjunction with the self-locking pulley on Page 42, most satisfactory labor saving results are attained.

Just at the harvest time, every minute counts and of course, you wish to save extra labor as well, so we are confident that every one who counts time saved as money will be installing one or more of these outfits.



METHOD OF GATHERING SLING LOAD

We are confident that no other one firm has sold to Canadian Farmers as many of these Hay Fork or Sling Outfits as we have, and having had no complaints whatever in the past, we are sure we handle the most reliable tools that are made. The second picture shows the sling load gathered up all ready to hoist, and the 3rd picture shows a fork load of hay being lifted by horse power and nearly ready to lock into the car preparatory to its run into the barn where it can be released in the desired spot in the mow. The slings are of course carried by the Hay Car in the same manner and released by the tripping of a centre automatic lock in each sling. This quick tripping lock releases the hay in such a way that it does not fall in a small pile, but spreads evenly over a good surface, thus lessening the amount of fork work by hand to a minimum. Tell us the length of your barn, the heighth from floor to peak, whether you load from end of barn or from centre driveway and we can give you a close estimate of the cost of a complete fork or sling outfit, including freight charges to your station.

HOISTING LOAD TO HAY CARRIER

ESTIMATES

Don't be afraid to write us about any goods advertised in this catalogue. Our Estimate Department is equipped to answer all enquiries promptly.

STEEL TRACK HAYING OUTFITS

There is a growing demand in some localities for Steel Track Haying Outfits, so to meet this demand we have listed below the necessary requirements. If you are in any doubt about what you require for your barn tell us the length of barn and whether you wish to load from centre driveway or from one end of barn, and we will give you an estimate showing cost of a complete outfit including freight charges to your station.

The illustration shows a joint of the celebrated Double Angle Steel Track, and the "Stanley" Unloader Steel Track Car to which we direct your particular attention. This **"Stanley Unloader"** is the most up-to date Hay Car made. It is a combination Reversible and Swivel Car of the most substantial construction. This car can of course only be used with our Double Angle Steel Track which is the only kind we recommend.

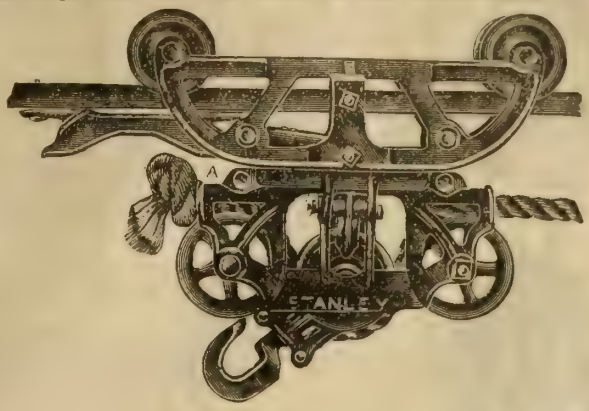


FIG. 32

Prices are as follows:

H 4915—Stanley Hay Carrier, for Steel Track, complete with fork pulley, 2 end stops and stop block..... **$4.50**

H 4920—Stanley Double Angle Steel Track, as illustrated, complete with joint clamps.....per running foot **13c.**

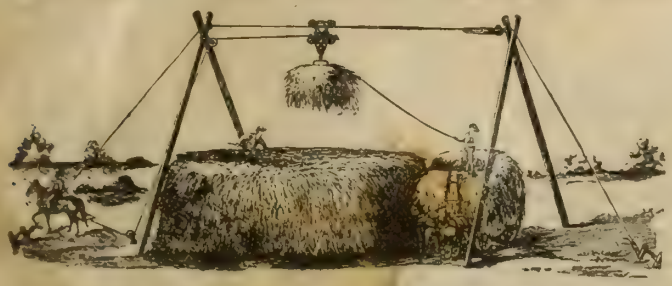
Total	$25 29



We have a most up-to-date and complete assortment of thoroughly reliable Hay Loading requirements.
Address all orders and communications to
STANLEY MILLS & CO., Ltd., Hamilton, Ontario.

Cable Stacking Outfits

There are various ways of erecting and operating these stacking outfits. The picture gives a good idea for prairie use, but on a farm where trees are plentiful, a good plan is to select two stout well grown trees and build the stack between them, securing the cable about the trees by means of the clamps. The most convenient size of timbers to provide for a stacking outfit is 4 in. x 4 in. x 30 ft. long, which can quite readily be procured in almost any locality.

When upright timbers are used, great care should be taken to firmly secure the ends of the cable. The shoulder clamps are bolted to the cable to keep the upright pieces from working inwards.

H 4975—CABLE STACKING OUTFIT.

1 Cable Track Carrier complete	$5 40	2 swivel pulleys	$ 54
1 Harris Double Harpoon Fork	1 25	2 wrought iron pulley hooks	14
150 ft. of ½ in. galvanized wire rope	7 50	110 ft. of ¾ inch pure Manilla rope	3 30
2 upright post bolts at 15c	30	50 ft. Russian Hemp Trip Rope	63
2 wire cable clamps to secure ends at 25c	50		
2 shoulder clamps for the uprights	40		$19 96

With the above information you can make up an outfit to suit your needs

H 5015—Pulley hooks best wrought iron, good points and threads, **7c** each.

HIGH GRADE HAY FORK PULLEYS

SPECIAL

H 5017—This swivel hay fork pulley has good heavy annealed malleable iron frame made in such a way as to protect and preserve the rope. Pulley is of best smooth turned maple, boiled in oil. Pulley runs on a 1 inch bushing. Price each, only.... **27c**

H 5018—Malleable iron frame swivel pulley, best iron sheave or pulley running on 1 inch chilled iron bushing, made with guarded pulley frame edges, so that rope will not be injured. A splendid all metal pulley. Only **35c** each.

H 5019—Heavy malleable iron framed swivel pulley. Knot passing style. Best maple wheel, boiled in oil. Runs on 1 inch bushing—a very serviceable pulley. Only **30c** each.

H 5021—Our best knot passing swivel hay fork pulley, best malleable iron frame, metal sheave, 1 inch chilled iron bushing. Only **40c** each.

H5025-Swivel Rope Hitch, avoids twisting of rope, no knots to tie, takes ⅝ or ¾ inch rope, **20c** each.

H 5027—Centre Sling Trip Lock, the best made—strong and easy to operate, **55c** each.

H 5032—Shoulder Clamps for wire ropes, from ⅝ to ⅞ inch in diameter. Price **23c.** each.

H 5033 -Double Wire Rope Clamps for securing the ends of wire ropes and will fit wire ropes up to ⅞ inch diameter; price **25c.** each.

WOOD TRACK FORK OUTFITS

For the convenience of customers who may not be familiar with Horse Forks, and may not know exactly what to order, we list below several outfits which will assist a prospective buyer.

We do not include the track in these estimates as it is simply good clear 4x4 dressed stuff and can be secured in any locality.

H 5040—Wood Track Hay Fork Outfit.

For 35 or 40 foot barn. Shipping weight, 100 lbs.

Outfit consists of:—

1 "Stanley" Improved Unloader Car	$4 50
1 Double Harpoon Fork	1 25
8 Rafter Brackets and Nails	40
8 Two-nut Hooked Track Bolts	64
3 Swivel Knot Passing Pulleys	90
3 Pulley Hooks	21
35 ft. Russian Hemp Trip Rope	44
90 ft. ¾ in. Pure Manilla Rope	2 70

The whole outfit for **$11 04**

H 5041—Wood Track Fork Outfit.

For 50 or 55 foot barn.

"Stanley" Improved Unloader Car	$4 50
Patent Lock Lever Fork	2 35
12 Malleable Rafter Brackets and Nails	60
12 Two-nutted Hooked Track Bolts	84
3 Malleable Knot Passing Pulleys	1 20
3 Wrought Iron Screw Pulley Hooks	21
50 feet Russian Hemp Trip Rope	62
120 feet ¾ inch Pure Manilla Rope	4 80
1 Swivel Rope Hitch	20
Total	$15 32

This Wood Track Outfit is the best outfit we can sell you. It is everything of the very best, and makes a satisfactory and good outfit to order.

H 5042—Combined Sling and Fork Outfit

For 50 or 55 foot barns.

If you have one of the best and largest barns in your county, then you want the very best and most complete hay and grain loading machinery you can get, and here it is:

"Stanley" Improved Unloader Car	$4 50
Lock Lever Harpoon Fork	2 35
4 Centre Trip Slings, 4 foot width	7 40
1 Self-Locking Sling Pulley	2 00
14 Malleable Iron Rafter Brackets	70
14 Double Nutted Hooked Track Bolts	98
3 Malleable Knot Passing Pulleys	1 20
3 Wrought Iron Screw Pulley Hooks	21
60 feet Russian Hemp Trip Rope	75
120 " ¾ inch Pure Manilla Rope	4 80
1 Swivel Rope Hitch	20
Total	$25 09

H 5043—Wood Track Fork Outfit.

For 65 or 70 foot barns.

"Stanley" Improved Unloader Car	$4 50
Lock Lever Harpoon Fork	2 35
20 Malleable Rafter Brackets and Nails	1 00
20 Two-nutted Hooked Track Bolts	1 40
3 Malleable Knot Passing Pulleys	1 20
6 Wrought Iron Screw Pulley hooks	42
60 feet Russian Hemp Trip Rope	75
150 feet ¾ inch Pure Manilla Rope	6 00
1 Swivel Rope Hitch	20
Total	$17 82

To make a combined Sling and Fork Outfit, add to the above list:—

1 Self-Locking Sling Pulley	$2.00
and 4 Centre Trip Slings at $1.85	7.40
	$9.40

This will give you a most complete outfit for a 70 foot barn.

OUR TOOL DEPARTMENT

We are prepared in all departments to serve you to the best possible advantage, but if there is any one department that is better than any other we would say it is the TOOL DEPARTMENT. Carpenters', mechanics' and blacksmiths' tools has always been our specialty, and this season's display in this department and the "lower than ever" prices that we are able to quote on reliable tools should attract wide-spread attention.

H 5044—PURE MANILLA ROPE

Figured at **14½c** per lb. and priced per foot on this basis.

Best well laid and hard twisted rope, cut to any length and sold only at so much per foot. The pure manilla ropes we stock from ⅝ inch to 1¼ inch inclusive, and we can highly recommend the quality as being of the very best of Manilla stock through and through.

Note—For the average horse fork work we recommend the use of our ¾ inch pure Manilla Rope. For light work ⅝ inch may be used, and for extra heavy work then 1 inch rope should be used.

3/4, 7/8, 1 and 1 1/4 inch sizes are all made of 4 strands which is very flexible.

Best Russian Hemp Trip Rope, per foot	1½c
3/8 inch Pure Manilla Rope, per foot.	¾c.

HOISTING MACHINES AND FARM IMPLEMENTS

STEEL SAFETY LIFT

Just what the farmers have been looking for. With the safety lift one can accomplish what would seem impossible. It has an automatic self-locking attachment that holds your load when you stop pulling. There are no springs to get out of order. Only small sized rope is necessary. When using Nos. 2, 3, 4, 5 or 6 if you wish to raise 20 feet it is necessary to order 100 feet of rope or 5 times the height you wish to raise the load.

When using Nos. 4 1/2, 51/2, or 6 1/2, order rope 7 times longer than distance you wish to raise the load.

We can also supply these safety lifts with hardened steel roller bearings which increase the capacity of each size one half, and makes them work easier as well.

Price of rope is on another page of this book (see index) and is not included in price of safety lift.

Nos. 2, 3, 4, 5 and 6 have double and single sheaves.

Nos. 4½ 5½ and 6½ have triple and double sheaves, increasing capacity with same sized ropes.

Directions are seat showing how to thread pulleys Steel Safety Lift can be used as a fence wire stretcher. Size No. 3 is the best for this purpose. You would also require for this work a wire grip, which we can supply for **45c.**

PRICES OF SAFETY LIFTS.

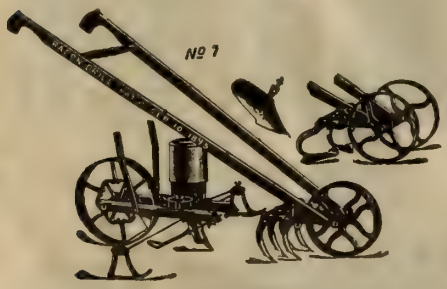
$5.50

H 5118—The Barker Weeder and Mulcher

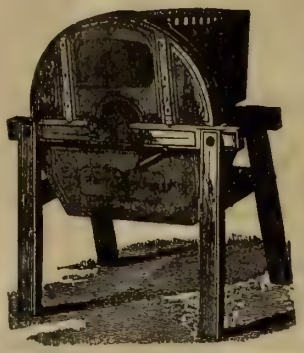
This Cultivator, built like a lawn mower, cuts weeds like a lawn mower cuts grass. Mulches and cultivates the soil, the capillary being broken up and the moisture prevented from evaporating. An excellent reversible machine, cultivates in one position and by turning over the machine the weed cutter is ready for use without further adjustment. Price only **$5.50**, Shipping weight 20 lbs. 1st Class freight.



H 5119—Combination Garden Drill.

This machine is a combination marvel. The attachments consist of one pair hoes, one pair of plows, one pair narrow cultivator teeth, one pair of wide cultivator teeth, one centre tooth. This excellent combination of the Garden Drill may be used as a one wheel or a two wheel seeder, hoe, rake, cultivator, plow or marker. It is easily operated, and the various changes of the machine are easily made. Price complete with all its attachments, only **$11.00.**

H 5127—Lever Feed Cutter—The cheapest and best in Canada, nicely painted and well made; weight 50 lbs.; 10 inch throat; cuts any length, knife easily adjusted. price only **$4.50.**



H 5128—ROOT PULPER AND SLICER. $10.00.

Wheel has six knives (all protected), can be used either as a pulper or slicer by reversing the knives. Will pulp or slice fine or coarse.

A new and enlarged style of hopper which prevents choking; bearings all of the best hardened steel balls; weight 200 lbs. Price only **$10.00.**

H 5129—New Patent Root Cutter.

The illustration gives one a good idea of our New Patent Root Cutter. The cylinder is tapered in shape and fitted with 10 of the best steel knives, making it the fastest Cutter on the market. Will cut from 2 to 3 bushels per minute and will not choke up. Heavy fly wheel makes this an easy running machine. Only **$13.00.** Shipping weight 100 lbs., 2nd class freight. Priced without basket **ONLY $13.00.**

Champion Cider Mill and Press

H 5130—Hand power, size No. 3, for small orchard use, weight 140 lbs.; **$14.00.**

H 5131—Size No. 2, large hand power size, weight 170 lbs.; **$16.75.**

H 5132— Size No. 1—Largest hand power mill weight 260 lbs; **$20.00.**

POULTRY RAISERS' SUPPLIES AND FOOD CHOPPERS

MAPLE LEAF INCUBATORS AND BROODERS.

We offer on this page, one of the most reliable and favorably known line of Incubators and Brooders made; these machines are made in Hamilton and are covered by the Manufacturers' strong guarantee as well as our own and under a different name would instantly be recognized as the leading machine in Canada. "Maple Leaf" Incubators are not exaggerated in either description or stated capacities and constructed throughout in the most substantial manner possible, with the end in view of obtaining the best hatching results. With proper management and by following the very simple directions that are sent with each machine, every fertile egg can be hatched. We have these "Maple Leaf" Incubators in four sizes each one fitted with smokeless Sun hinge burners of the highest grade and Taylor Bros. Rochester Thermometers which are known as the most reliable to be procured. The money spent on an Incubator and Brooder outfit is soon made up to the owner, so that the original cash outlay is a small matter.

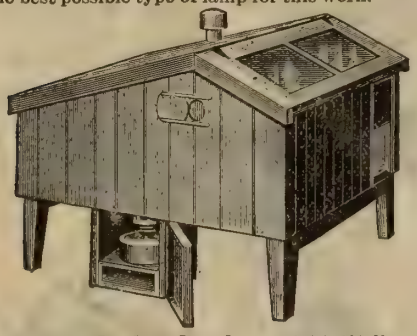
PRICE LIST OF "MAPLE LEAF" INCUBATORS.

Number	Capacity	Shipping weight 1st class	Shipping weight freight	Price
H 5702	60 "	80 "		**$15.00**
H 5703	120 "	125 "		**$22.50**
H 5704	240 "	200 "		**$27.50**

If necessary we can send you the Manufacturers' Booklet giving all the details of description on this line of goods.

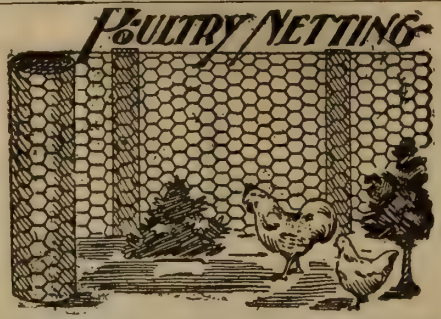
"MAPLE LEAF" OUTDOOR BROODER.

This outdoor brooder is one of the largest brooders on the market; it is substantially built with matched material and is well finished in every way. It is built in sections, easily taken apart for cleaning purposes or for storing when not in use. This Brooder has large double glass window for proper supply of sunlight. The heating and ventilating system is the most up-to-date. The Lamp is of the same style as we supply in our incubators and is the best possible type of lamp for this work.



H 5707—Outdoor Brooder weight 100 lbs, 1st class freight, price **$11.00.**

We supply a reliable Egg Tester with each incubator. Now, about the material used in the construction of these Incubators and Brooders, we would state that only the finest grade Apollo steel is used in constructing the heat radiator tank. All the castings and hardware fittings are painted with aluminum to prevent rusting. The Mineral and Asbestos packing is used in liberal quantities and is properly put into the machine. The lumber is of best quality, well seasoned and kiln dried. The inside casing is made of white basswood, the frame work of hard maple and the outside casing of ash. If you desire further information write us for Manufacturers descriptive booklet.



There are two qualities of Poultry Netting. We only handle the very best. Made of best galvanized wire, with strong selvage edges. Each full roll is fifty yards long. Price is per full roll. Size of mesh or hole is 2 inches each way. A roll of the 36 inch weighs about 35 lbs.

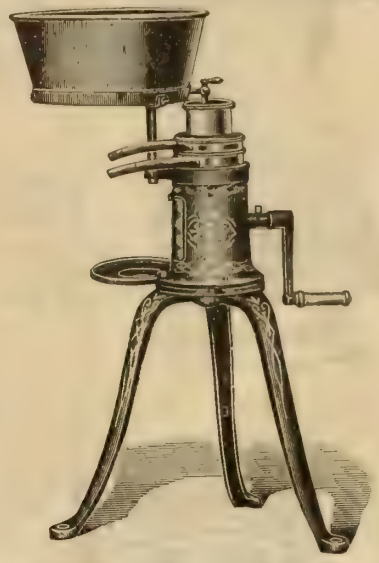
"STANLEY MILLS" CREAM SEPARATOR



Don't pay 2 prices for a Separator. Read carefully.

H5895—"Stanley Mills" Cream Separator. Special Cash with Order Price, ONLY..... **$48.00**

The above picture gives a good general idea of the style of our **"STANLEY MILLS"** Cream Separator. We think every prospective purchaser will agree that local agents want too much money for a Cream Separator. We sell Cream Separators in just the same way as we have for years sold Sewing Machines, Organs, Pianos, etc., by buying for cash and selling upon strictly **"Cash with the Order"** terms. We are thus able to do away with any losses on account of bad debts, and can surely sell to you cheaper than any other method of buying and selling will permit. Write to us if you wish to know definitely just what the "Stanley Mills" Cream Separator will cost, including freight charges to your station.

"STANLEY MILLS" CREAM SEPARATORS

Our Separator, sold as the **"STANLEY MILLS"** machine, is really one of the best known high priced machines on the market, specially manufactured and named for our trade. These are the only points of difference, and it is simply a matter of your saving many dollars on a machine by being able to pay us cash with the order.

The **Capacity** is from 350 lbs. to 400 lbs. per hour, guaranteed, and the machine has the following special features in its favor:—Forged steel bowl; simple bronze metal neck-bearing bushing, with adjustable spring; all square gear, no worm gear being used; all spindles run on interchangeable bronze bushings; no complicated lubricators are used; all moving parts enclosed; all parts are easy to get at; material used in all parts is of the very highest grade; the machine sits on legs which does away with the milk accumulating under the stand and corroding; the skimming is done by the disc process, which cannot be equalled, as has been proven in the past; machine turns very easily and has a short crank; very easily washed, this being an important feature; the wearing parts are interchangeable and can be sent by mail at a small cost.

Each Separator is numbered and, after being thoroughly inspected and tested, has attached to it the following

GUARANTEE

"This certifies that this 'Stanley Mills' Cream Separator is in every respect a first-class machine, that it is of best material and is of best workmanship, and we guarantee it for a period of 12 months from this date against failure of any part except that which may be caused by accident, misuse or abuse, and we agree to replace any defective part or parts free of charge."

H5895—"Stanley Mills" Cream Separator, complete, with full yet simple instructions, shipping weight, boxed, 110 lbs. Price only..... **$48.00**

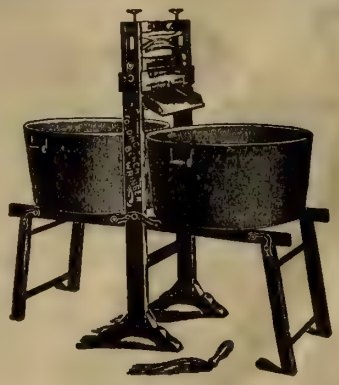
H 6006—The "Stanley Mills" Ball Bearing Wringer, with best 5 year Guaranteed Solid Rubber Rolls. To this excellent, serviceable Wringer, we call your most particular attention. The Wringer frame is made of choicest well seasoned stock and nicely varnished. This machine has enclosed or covered cog wheels to prevent clothes from being torn or soiled by oil. It is fitted with spiral steel springs as shown in cut. The rolls are absolutely guaranteed by the Manufacturers for a term of five years, it will probably last you for 20 or 25 years. The price for this superior Wringer is only **$5.50.** It is the best Ball Bearing Wringer made and we recommend it's purchase in preference to all wringers.

ONLY

$5.50



The "Ideal" Ball Bearing Bench Wringer.

H 6008—The "Ideal" Bench Wringer; the wringer is much the same as No. H 6003, but it is built as part of the Folding Bench stand, as shown above. The price for complete stand and wringer (without tubs) is **$6.25.**

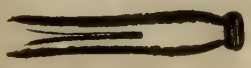
H 6009—The "Stanley Mills" Ball Bearing Bench Wringer—same style as No. H6008 only it is supplied with the very finest and most durable solid rubber rolls same as in No. H 6006. Price for this Bench Wringer complete, without tubs, **$6.75.**

If you can possibly afford this wringer it will prove a most excellent investment.

WASH BENCH.

H 6011—Folding Wash Bench or Tub Stand made of best hard maple, made so as to hold any wringer at the top; weight, 16 lbs. Price **$1.75** each.

H 6012—Patent Clothes Pins, per doz. **5c**; 12 doz. for **55c**; 24 doz. for **$1.00.**



H 6013—Star Clothes Pins, well made and smooth finished, 4 dozen for **5c.**

CLOTHES MANGLES

H 6026—Domestic Mangle, for family use, easy to operate, well geared, hard dry maple rollers, 23 x 3¾ inches, two pressure screws, malleable iron ends, can be clamped to any table; weight 50 lbs. Price **$7.50** each.

H 6027—Victor Mangle—Very heavy iron frame on casters, 3 solid hard maple rollers, thoroughly seasoned, size 24 x 5 inches heavy spring with top wheel pressure; total weight 180 lbs.; price **$17.50**

Washboards

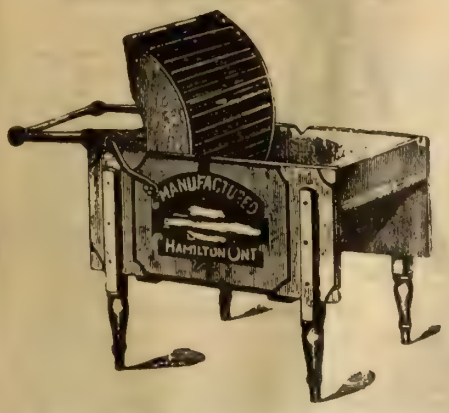
H 6030—Small size for use in washing fine goods, each **15c.**

H 6031—The "Globe" Wash Board, full size, best corrugated zinc board, **20c.**

H6032—The Improved "Special" Wash Board, very durable, each **30c.**

H 6035—Heavy Glass Corrugated Washboards, **40c.**

WASHING MACHINES.



H 6044—The Old Reliable Washer—This excellent washing machine is probably the best known of all washing machines, and needs no particular mention at our hands. It is favorably known everywhere. It will wash anything, large or small, a few at a time or a tubful, works easily and thoroughly, and saves wear and tear on the clothes

Workmanship and material guaranteed; an excellent washing machine in every way; price only **$4.00** each; weight 50 lbs. We strongly recommend this excellent washing machine. Inside dimensions, 27½ inches x 17 inches x 12 inches.

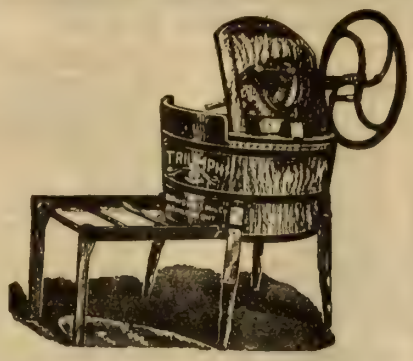
H 6046—The well and favorably known "Maple Leaf" Washer, somewhat similar to the Old Reliable in size and general appearance, except that it has a most ingenious style of easy working leverage. This sliding double lever is a most commendable feature as it makes operating of this machine very much easier. Inside dimensions, 27½ inches x 17 inches x 12 inches. Weight 60 lbs. Price only **$5.00.**

H 6050—Cradle Washer, clothes travel around the machine in the form of the figure 8, thus overturning the clothes at every operation of the machine; inside of body, 16 x 28 x 10½ inches; weight 45 lbs; **$5.00** each.

House Pails

H 6051—Common Wood Pails, 2 hoops, each **25c** 3 hoops **30c**.

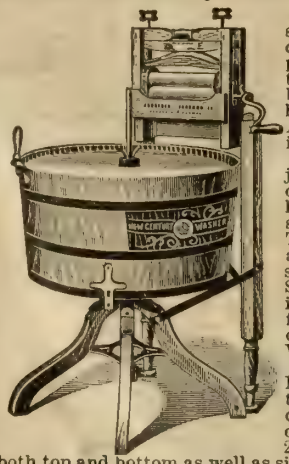
H 6052—Best Fibre Pails (hoopless), very durable, **40c** each.



H 6053—Success Round Re-Acting Washer

Has corrugated inside and easy running gear; inside measure of body, bottom 20 inches wide, top 23 inches across, 10 inches deep. When in use the cover of the machine is closed so there is no splashing or escape of steam. Has very strong legs. Price is **$6.25**; shipping weight 65 lbs.

H 6054—The Stanley Mills Washing Outfit



The Machine itself is simple in construction yet perfect in operation. The ball bearings are case hardened steel. Automatic reversing action.

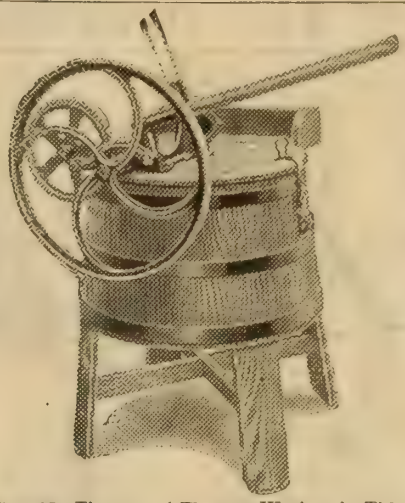
The Wringer is just the same as our No. H 6006 high grade quality shown on page 48. This Wringer is attached to a substantial Wringer Stand and does not in any way interfere with the free operation of the Washing Machine

Dimensions—Height, 31½ inches to top of tub; depth of tub, 13½ inches; diameter of tub, 25½ inches. Tub has both top and bottom as well as side rubbers. Price of complete outfit as pictured, **$14.00.**

H 6055—Same as above, but without Wringer, **$8.50.**

H 6056—Stanley Mills Washing Machine without wringer or wringer stand, only **$7.50.**

H 6057—The new improved "Stanley Mills" Washing Machine. This is the latest and best model yet introduced. It is so arranged that washing can be done without removing the wringer, and the folding bench, which is attached, provides a place for a rinsing tub or a basket. This machine has all the latest improvements such as oil retaining ball-bearing cones, hardened steel ball-bearings, steel wire springs which do away with all jar and lessen the work to a minimum. This machine, complete with wringer stand and folding bench as shown in cut, only **$9.00.**



H 6058—The new "Thermo Washer." This is the latest production in the line of washing machines. It combines simplicity of action, perfect workmanship, and above all, easy running. This machine is so constructed that when the clothes and hot water are put into it the steam cannot escape. This not only keeps the room cool but makes the washing a good deal easier. The mechanism is so simple and so effective, that by a short stroke on the straight lever which works from one cog to another the heavy fly wheel on the side, propels the inner workings of the machine. This machine, complete with shelf for wringer, only **$8.50.**

H 6060—Fibre Wash Tubs, most durable tub of all, a little expensive to start with, but very much cheaper in the end. 18 inch diameter, **$1.25**; 20 inch, **$1.35**; 22 inch, **$1.50**; 24 inch, **$1.75.**

H 6061—Wood Wash Tubs, painted or unpainted, wood handles. 20 in., **85c**; 22 in., **95c**; 24 in., **$1.15**, 26 in., **$1.25**

H 6062—Small Wood Tubs. These are used by children or for small work like laces, etc. **25c**, **35c** and **50c** each.

H 6063—Galvanized Iron Tubs. 20 in., each **85c**; 22 in., each **$1.00**; 24 in., each **$1.15.**

Mrs. Pott's Smoothing Irons, 85c.

Sold in sets of three irons (different sizes), with one moveable handle and one iron stand.

H 6070—Mrs. Pott's Irons, polished, per set, **85c**
H 6072— " " nickeled, " **$1.00**

H 6074—Potts' Iron Handles—Well made in every way. Highly polished wood handle bars. Price only **10c** each.

H 6075—Potts' Iron Stands, **10c.**

H 6076—Ironing Wax, per cake with handle **3c** each; 6 for **15c.**

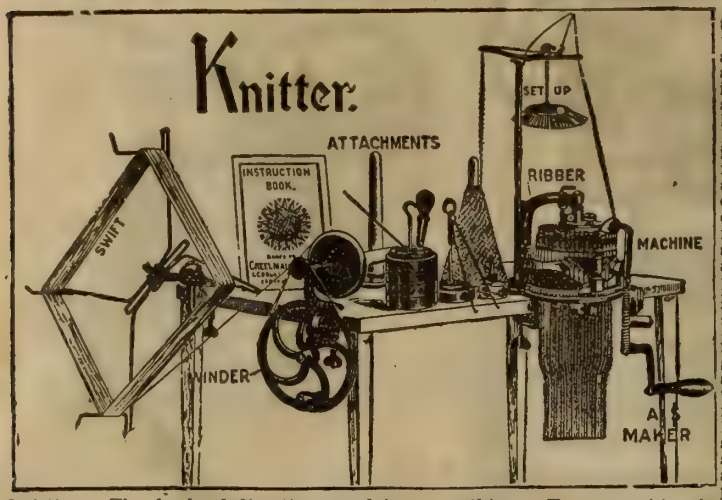
H 6077—Common Smoothing Irons, 5, 6, 7, 8, 9 and 10 lbs. each. Per lb. **6c.**

H 6078—Troy Polishing Irons. Same as right hand illustration. For polishing linen goods, **50c** each.

H 6079—Blouse or Sleeve Polishing Irons, **40c.**

H 6080—The "Ironslick" Waxing Pad, an indispensible article in the laundry, **10c**; post. **3c** extra.

H 6129—FAMILY KNITTING MACHINES, $14.25.



The Improved Knitting Machine, complete with ribber and all attachments, which we are offering this season, is the most satisfactory and most perfectly made hand-power Family Knitting Machine in Canada. The workmanship is first-class and the machines are easy to operate. With one of these knitting machines, and the instruction book, which accompanies each, any person of ordinary ability may, with a few hours practice, perfectly knit such articles as ribbed socks, mitts, gloves, underwear, shirts, drawers, caps, toques, quilts, etc. A machine will knit from 12 to 18 pairs of ribbed socks, according to the skill of the operator in a day. You can do plain knitting or ribbed knitting. The book of directions explains everything. Every machine is set up and used with yarn before sending it out. Each is boxed and packed very carefully for shipment and weighs about 35 lbs. We only sell these Improved Knitting Machines all complete with the following attachments: Bobbin Winder, Yarn Swift, Heel Hooks, Weight Hook, Weights, Screwdriver, Oil Can, Work Hook, three Bobbins, six extra Rib and six extra Plain Machine Needles, Set-up Device and Book of Instructions. The price of the machine all complete as described above is only **$14.25.** Any smart person can make a good living by manufacturing and selling knitted articles of wear during the winter months.

BROWN GRIZZLY BEAR ROBES

HA 230—Brown Grizzly Bear Robes, Style 291, very close and long hair, with excellent hide, tanned in most approved manner Each robe is best plush lined and is trimmed double with pinked edges. Size of robe about 54 x 62 inches. A splendid value at..... **$11.75**

HA 231 — Same as above, size about 54 x 72 inches..... **$13.75**

Imitation Buffalo Robes.

HA 232—These robes are not animal skins. They are made of very heavy woven fabric, which in appearance is very similar to the old Buffalo skin of the prairies (now extinct.) The color is a rich deep brown. Between the lining and the robe is a rubber sheet, which makes the article wind proof and waterproof. They are handsome, soft and pliable, warmer than a skin robe, and are easily dried after being wet. These splendid robes are made in Galt, Ont., and we highly recommend them

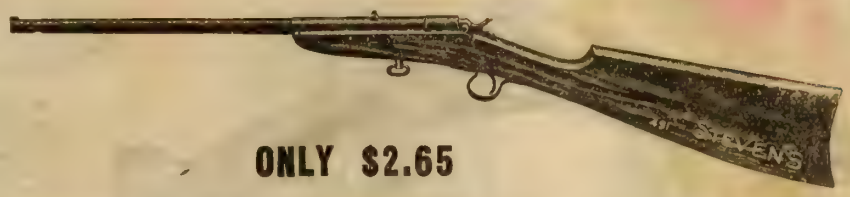
RELIABLE RIFLES AT POPULAR PRICES

SG 29—Stevens' New "Little Scout," $2.65

A low priced, accurate shooting rifle, can be easily taken apart by means of one set screw, 18 inch barrel, walnut stock, open rear sight, knife edge front sight, shoots 22 short, 22 long, or 22 long rifle, rim fire cartridges. Price, only **$2.65.**



ONLY $2.65

SG 31—Stevens' "Crack Shot Rifles," $4.00

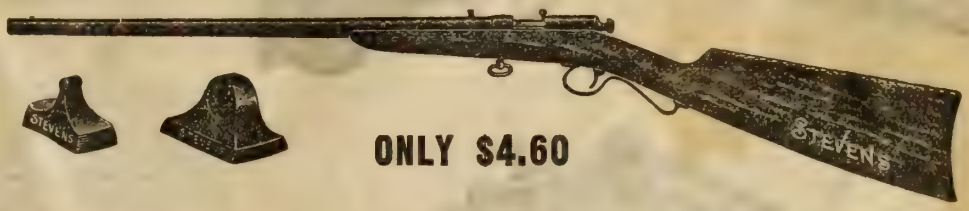
A well finished and splendid shooting gun, 20 inch round blued barrels, case hardened steel frame, walnut stock and forearm, rubber butt plate, will shoot 22 short, 22 long, or 22 long rifle, rim fire cartridges, plain open front and rear sights. Price only **$4.00.**

SG 33—Same as above but for 32-calibre **short** cartridges only. Price only **$4.05.**

TAKE DOWN FEATURE

SG 35—Stevens' "Little Krag" Rifle, $4.60

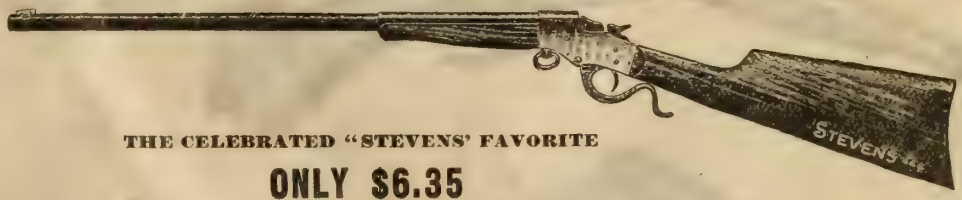
The "Little Krag" Rifle has a military straight pull action; this rifle is a model of simplicity, can easily be taken apart when necessary to clean it. When the rifle is cocked it is locked so that it is impossible to fire it in any way but by pulling the trigger; this rifle will shoot 22 short, 22 long, or 22 long rifle, rim fire cartridges. It is equipped with rear peep sight and open front sight. Price only **$4.60.**



ONLY $4.60

SG 37—Stevens' "Favorite" Rifle, $6.35

A very high grade small calibre rifle, blued barrel, half octagon, 22 inches long, frame case hardened, stock, oiled walnut, rubber butt plate, Rocky Mountain front and Sporting rear sights, 32 calibre, short or long rim fire cartridges. Price only **$6.35**



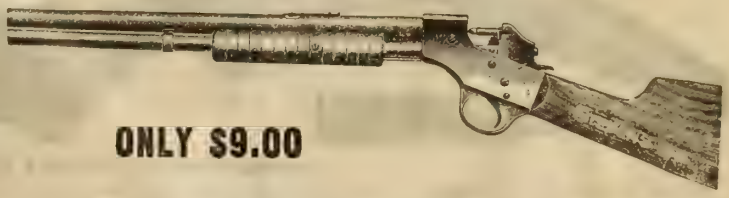
THE CELEBRATED "STEVENS' FAVORITE

ONLY $6.35

SG 38—Steven's 22 Calibre Visible Loading Repeater

For 22 short cartridges, 20 inch round barrel, walnut stock and slide handle, fitted with bead front sight and sporting rear sight, will also shoot C. B. caps. Weight about 4½ lbs. Price **$9.00.**

The "Visible Loading" Repeating Rifle is an entirely new idea. The cartridge as it is loaded into the chamber is always in sight, the magazine tube and breech lock are made of one piece of steel, the double extractors makes the extraction positive, the breech lock has a positive lock and is operated by the slide handle after the breech block is closed, the hammer also has a positive lock and is always locked while the breech block is unlocked, the barrel is rifled with a slow twist, one turn in 25 inches, which assures the most accurate shooting as long experience has proven. Price only **$9.00.**



ONLY $9.00

SG 84—WINCHESTER SUPPLEMENTAL CHAMBERS

By placing one of these Winchester Supplemental Chambers in the breech of any Winchester Rifle listed above you are enabled to shoot small sized cartridges.

Calibre	Cartridges to use in chambers.
.30 Winchester	For use with .32 S. & W.
.30 Army	For use with .32 S. & W.
.303 Savage	For use with .32 S. & W.
.303 British	For use with .32 S. & W.
.32 Winchester Special	For use with .32 Short Colt.
.32-40	For use with .32 Short Colt.
.35 Winchester	For use with .38 S. & W.
.405 W.C.F.	For use with .41 Colt D.A. Short

We recommend the use of smokeless powder cartridges with the Winchester Supplemental Chamber, as black powder cartridges soon foul the barrels having such quick twists as the above.

Price for any size above, only **75c** each. Postage **6c** each.
